

School IT Information Sheet

Network requirements for The Business School classroom simulation

Dear IT / Network team, a teacher at your school is planning to run a 60-minute classroom simulation with their students using **The Business School**. To allow students to access the simulation through your network, please whitelist the following domains. None of these store personal student data.

DOMAINS TO WHITELIST

REQUIRED DOMAINS FOR TEACHER AND STUDENT ACCESS

<code>education-tbs.co.uk</code>	Main application — teachers create sessions, students join with PIN.
<code>www.education-tbs.co.uk</code>	Same as above (www subdomain).
<code>thebusiness.school</code>	Marketing site (Trust Centre, Privacy Policy, public pages).
<code>*.netlify.app</code>	Hosting CDN and serverless functions (UK / EU edge nodes).
<code>*.neon.tech</code>	Database connection (encrypted at rest, TLS 1.2+ in transit).
<code>api.anthropic.com</code>	AI inference for end-of-session feedback reports. No student personal identifiers are sent to the model.

PORTS AND PROTOCOLS

PROTOCOL

HTTPS only (TLS 1.2 or higher)

PORT

443 (standard HTTPS)

NO SPECIAL PORTS

No WebSocket-only port. No streaming. Standard web traffic only.

NO SOFTWARE INSTALL

Browser-only. No app, no plug-in, no Java, no Flash.

DATA AND COMPLIANCE

✓ **UK GDPR compliant.** Data Processor (school is Controller). Full DPA available on request.

- ✓ **ICO Registered:** ZC133810 — verifiable on the public ICO register at ico.org.uk.
- ✓ **No student personal data collected.** Students join with a self-selected nickname only — no name, no email, no DOB, no photo, no account, no password.
- ✓ **KCSIE 2024/25 §143 aligned.** AI feedback uses session data only; no free-text input from students reaches the model.
- ✓ **Trust Centre, Privacy Policy, DPA, DPIA** all published at thebusiness.school/trust.
